jobs@nxtbookmedia.com

Location: Lancaster, PA 17602

Status: Full Time Employee

Relevant Work Experience: 2+ to 5 Years

Education Level: High School or equivalent

“With its headquarters in Lancaster, PA, Nxtbook Media (NBM) is an application service provider that transforms print products into live, interactive e-publications!”

After experiencing record growth in 2006 and 2007, Nxtbook Media continues to grow in multiple product segments. Join our core team of developers who are working on the next generation of the Nxtbook product. We are looking for a highly motivated developer who is looking to solve technical challenges in a casual and fun work environment. Primary job responsibilities will include:

- Work closely with the other Flex developers to support on-going product improvements.
- Lead and assist with the development of new products, primarily developing Flex applications.
- Assist with the integration of Flex applications with back-end web based systems.
- Provide internal customer support to sales and production departments as well as Nxtbook resellers.

The successful candidate will have at least 1-3 years of experience with the following technologies:

- Adobe Flex
- ActionScript 2/ ActionScript 3
- MXML
- OOP
- MVC Experience (Cairngorm or other MVC framework a plus) XML

Experience with the following is preferred:

- Flash
- Adobe AIR/SQLite
- version control systems such as Subversion HTML/JavaScript/CSS
- creating custom components for Flex/Flash
- SQL
- PHP
- AMFPHP, WebOrb, or JSON

As a member of the NXTbook family, you'll receive the following extensive benefit package:

- Competitive Salary
- Tax Deferred 401K Plan
- Health, Dental and Vision on the 1st of the month after you start
- Life Insurance
- Short-term and Long-term Disability
- Flextime
- Liberal Vacation Program
- Casual Day, Every Day!
